Projects

PARKY HTTP://PARKY-APP.HEROKUAPP.COM/
- full MERN stack web app made as a group project. It is an AIrBnB like site where users can rent or rent out parking spaces from all over the city.

FREE SPIRITS HTTPS://FREESPIRITS.HEROKUAPP.COM/
- Is a web application that was also a group project at Penn LPS coding bootcamp. It's a cocktail app that a user enters in everything they have on their shelf. Once searched it returns only cocktails with those ingredients.

GOOGLE BOOKS HTTPS://GOOGLEBOOKS-APP.HEROKUAPP.COM/
- is a MERN-stack app that allows users to search for and save books through Google Books API.
- This app uses React to handle the view and functionality, Express and Node for server-side API routing, and MongoDB for storing the user's saved books
