Summary

Full-Stack Web Developer applying my background in truck driving and having a strong work ethic towards a career in building clean, intuitive web applications. Quick learner and excellent problem solver. Great interpersonal skills and team communication. Excellent at logistics.

Technical Skills

Javascript, jQuery, React, HTML5, CSS3, Bootstrap, REST APIs, Node.js, Firebase, Express, MySQL, Sequelize, Handlebars, Materialize

Projects

Little Philly https://cgottshalkjr.github.io/Project1/ |

- A web application intended for parents to keep children involved in community through local events, activities, etc.
- Made with a group of three. My responsibilities were to work with APIs and develop a share of the Javascript and jQuery.

FriendFinder https://dry-temple-68536.herokuapp.com/ |

- A fun app that uses Javascript, Node, Express, Bootstrap, jQuery, CSS, HTML, Git, Github, Heroku

SoupSlurp https://immense-oasis-00715.herokuapp.com/ |

- A fun restaurant app that uses Javascript, jQuery, Express, Node, MySQL, Handlebars, Bootstrap, CSS, HTML, Github, Heroku

Experience

Truck Driver, Allied Beverages   Dec. 2004 – May 2019

Delivered products and dealt in customer relations. Handled billing issues and troubleshooting. Was relied heavily upon by salesman, customers and managers. Got a great handle on Logistics.

Education

University of Pennsylvania LPS Coding Bootcamp — *Certificate*

October 2019 – January 2020

OSHA 30 Certified
